

Dear Customer:

We understand that some companies claim to offer EVE LFP cells with no authorization or certification from EVE Energy Management. When being contacted or solicited by these companies, please ask to see their official EVE CERTIFICATE to ensure these companies have been authorized by EVE Management. Please note, without a written certification from EVE, these resellers are not permitted to sell EVE products and the cells will not be covered under EVE's quality assurance or warranty program.

If you have any questions, please contact us
